

Complete and forward this form with required attachments to the Research Services and Ethics Office (research.services@usask.ca) to request the creation of a Continuous Research Fund. Eligible internal funds must be available for transfer at the time of request.

Principal Investigator:

Department:

College:

Phone:

Email:

The primary purpose of a Continuous Research Account is to consolidate internal funds that are intended to be used for research. Continuous Research Funds are composed of unrestricted research funding which is provided to faculty members through various means.

Source of Funding:

Fund Number of Source:

1. Include a copy of the letter/email from the unit managing the funding source which states that the funding can be transferred to your Continuous Research Fund. A letter/email is not required if the source of funding is Residuals.
2. Check each of the following regulatory compliance areas that are known to be required at the time of this request. Any research conducted within University facilities, or undertaken by persons connected to the University must be reviewed and approved at the appropriate levels.

Animals or Animal Tissue
 Bio-hazardous Materials

Human Ethics - Biomedical
 Human Ethics - Behavioural

3. If the approvals are already in place select the regulatory compliance type and enter the Ethics or Permit number.
