

# CELEBRATE

## Help celebrate the accomplishments of U of S faculty members!

SRI is looking for your help in identifying the U of S' strongest researchers, scholars, and artists to nominate for awards and recognitions.

Here's how you can help:

1. **Set aside 5-10 minutes** at the end of your department/college review committee meeting this fall to discuss who has had an outstanding year.
2. **Share** the names that the committee identifies as doing excellent work with your Associate Dean Research, Research Facilitator, and with the OVPR's **Faculty Awards and Recognition Specialist**.
3. If you would like to investigate some of the awards and recognitions that might be suitable for your colleagues, please consult our **Awards Snapshots**. The awards snapshots distill what it takes to be competitive for some of the most important national and international prizes.

Your suggestions will help inform the university's nominations for major awards and recognitions. For questions or further information, please contact Sara Mueller, Faculty Awards and Recognition Specialist at [sara.mueller@usask.ca](mailto:sara.mueller@usask.ca).
